

Lea Insurance is more than just our insurance broker, the firm is an integral part of our business network. As a professional practice, we are constantly requested by clients to refer them to other business professionals. Until meeting Lea Insurance, we were reluctant to refer clients to an insurance broker out of fear that clients will not be adequately serviced and the referral would reflect poorly on our office.

We are happy to say that since the commencement of our relationship with Lea Insurance, this has never been a problem again. In fact, its now quite the opposite. We have never had a client that has had a bad experience at Lea Insurance. In short, a referral to Lea Insurance make us look good!

Lea Insurance have never failed to provide us and our clients with exceptional service. Their depth of service, technical expertise and their responsiveness to our requests sets them apart and accounts for our long-term relationship.
